6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Put on appropriate personal protective equipment (see Section 8).

Methods and Materials Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly

remove soiled clothing and wash thoroughly before reuse.

Appropriate Engineering

Controls:

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Individual Protection

Respiratory Protection: None required.

Measures:

Eye Protection: Wear safety glasses or goggles. Eye wash fountains in work area are recommended. Skin Protection: Employees should wear an impervious apron or impervious clothing to protect from

splashes. Chemical impervious gloves required.
